**XILINX APPOINTS SANDY SULLY VICE PRESIDENT,
CHIEF INFORMATION OFFICER**

SAN JOSE, Calif., October 10, 1995—Xilinx, Inc., (NASDAQ:XLNX) today announced it appointed Sandy Sully as vice president and chief information officer. Reporting to Gordon Steel, executive vice president, Finance, and chief financial officer, Ms. Sully will be responsible for global management information systems (MIS) and computer resources at Xilinx.

“I’m confident that Ms. Sully will be instrumental in providing Xilinx with a new MIS strategy that will be of great value to us as we pursue our aggressive corporate objectives,” says Gordon Steel.

Before joining Xilinx, Ms. Sully was vice president, MIS at 3Com Corporation for three years. Prior to that, she was with National Semiconductor Corporation for eleven years, most recently as director of Worldwide Systems Development. Ms. Sully holds a BA degree from the University of Michigan and an MBA degree from Pepperdine University.

“Xilinx is committed to providing the tools required for seamless internal and external communication as the company grows and competes in the global marketplace,” says Sandy Sully. “Due to its incredible growth and success in the industry, it’s an exciting time to be a part of Xilinx.”

Founded in 1984, Xilinx is the world's largest supplier of programmable logic in the semiconductor industry. The company pioneered the market for field programmable gate array (FPGA) semiconductor devices that provide high integration and quick time-to-market for electronic equipment manufacturers in the computer, peripheral, telecommunications, networking, industrial control, instrumentation, and military markets. Headquartered in San Jose, Calif., the company produces innovative device architectures and enabling development system software.
